

VOGGU RISHITHA

HYDERABAD, TELANGANA | 9059320875 | rishitha.voggu@gmail.com | [linkedin.com/in/voggu-rishitha](https://www.linkedin.com/in/voggu-rishitha)

CAREER OBJECTIVE

Assistant Professor and ML researcher with an M.Tech in CSE (CGPA: 9.28) from the Institute of Aeronautical Engineering. Published researcher with a conditionally accepted paper on IoT network security, ML, and error-correcting codes. Experienced in neonatal health ML systems, SAP enterprise solutions, and corporate training. Committed to academic excellence, student mentorship, and applied research in machine learning and network security.

EDUCATION

Institute of Aeronautical Engineering, Hyderabad <i>M.Tech in Computer Science & Engineering CGPA: 9.28 / 10.0</i>	Completed: 2025
Institute of Aeronautical Engineering, Hyderabad <i>B.Tech in Computer Science & Engineering CGPA: 7.71 / 10.0</i>	Graduated: 2021
Sri Gayatri Junior College, Hyderabad <i>Intermediate (MPC) Percentage: 69.3%</i>	2017
St. Peter's Grammar School, Hyderabad <i>Secondary School (SSC) CGPA: 7.7 / 10.0</i>	2015

PROFESSIONAL EXPERIENCE

Institute of Aeronautical Engineering, Hyderabad <i>Assistant Professor — Department of Computer Science & Engineering</i> - Deliver lectures and practical sessions in core CSE subjects, ensuring strong conceptual understanding among students. - Mentor students on academic projects, research activities, and career development initiatives. - Contribute to curriculum planning, lab coordination, and departmental academic activities.	Aug 25, 2025 – Present
Accenture Solution Pvt. Ltd., Hyderabad <i>Application Development Associate</i> - Completed 6-month training on SAP ABAP, gaining proficiency in ABAP programming and SAP MM module. - Executed SAP MM project for Occidental Petroleum Corporation (WES-IT-Migration), creating Purchase Orders and Purchase Requisitions. - Collaborated with cross-functional teams to ensure successful migration and data integrity.	Nov 2021 – Aug 2022
Literacy India (Part-time) <i>Corporate Trainer</i> - Managed beneficiary enrollment, Aadhaar documentation, and Digital Management System (DMS) record-keeping for 100+ trainees. - Conducted financial literacy sessions and tracked training milestones, improving curriculum adherence. - Prepared monthly performance reports and identified potential entrepreneurship candidates, contributing to program improvement.	January 2024

INTERNSHIP

Verzeo <i>Machine Learning Intern</i> - Completed hands-on training in Machine Learning tools and techniques including Naive Bayes Classification. - Developed an SMS Spam Detection system using Python and Naive Bayes Classification Algorithm.	Aug 2019 – Sep 2019 (3 Months)
--	--------------------------------

PROJECTS

Advancements in Network Security and Coding Theory: Integrating Machine Learning, AI, and Error-Correcting Codes to Enhance Communication Reliability and Protect IoT Networks <i>M.Tech Research Project (Conditionally Accepted — Major Project)</i> Conducted in-depth research on integrating ML and AI with error-correcting codes to strengthen IoT network security and communication reliability. Paper conditionally accepted for publication, demonstrating advanced expertise in network security,

coding theory, and applied machine learning.

Early Detection of Cardiac Arrest in Newborn Babies Using Machine Learning and Statistical Models

M.Tech Mini Project

- Developed a machine learning pipeline leveraging statistical models for real-time early detection of cardiac arrest in neonates within the Cardiac Intensive Care Unit (CICU). Applied classification algorithms on physiological signals to enable timely clinical intervention and improve neonatal outcomes.

Identification of Plant Leaf Diseases using ML

- Designed a CNN-based platform to detect rice plant diseases (bacterial leaf blight, brown spot, leaf smut) using Inception V3, Inception ResNetV2, and VGG19 models; achieved 90% classification accuracy using Adam Optimizer.

SMS Spam Detection (Verzeo Internship)

- Built a spam SMS classifier using Python and Naive Bayes Classification Algorithm, enabling automated filtering of unsolicited messages.

Occidental Petroleum – SAP MM Migration (Accenture)

- Executed SAP MM migration project involving creation of Purchase Orders and Purchase Requisitions for a large-scale oil & gas enterprise.

Web Development Projects (MakeNow Academy Training)

- Developed websites, landing pages, login forms, and a resume page using HTML, CSS, and JavaScript during structured training.

House Price Prediction

- Built a regression model to predict house prices based on user-specified features, applying supervised learning techniques.

TECHNICAL SKILLS

Languages:	C, Python, Java, HTML, CSS, JavaScript
SAP:	SAP ABAP (Basics), SAP MM
ML / Data Science:	Machine Learning, CNN, Naive Bayes, Scikit-learn
Database:	MySQL
Tools & Software:	MS Word, MS Excel, MS PowerPoint, AUTOCAD, MATLAB
Operating Systems:	Linux, Windows

CERTIFICATIONS

Microsoft Technology Associate (MTA) — Certified in 'Introduction to Programming using Python' — cleared in first attempt

Verzeo — Course Completion in Machine Learning (Aug – Sep 2019)

Purple.com — Frontend Fundamentals — Blockchain Verifiable Certificate

Great Learning — Front End Development – HTML

MUN Workshop — Certification of Participation — IARE, Dundigal (April 2019)

Train the Trainer — Certified 'Train the Trainer' professional
